STARFINDER ADVENTURE PATHS

STARFINDER ADVENTURES
The volumes of the Starfinder Adventure Path: The Threefold Conspiracy can be played to gain specific benefits for the Starfinder Society Organized Play campaign.

KEY DIFFERENCES FROM SCENARIOS
Starfinder Adventure Paths have variable playtimes. They don’t contain specific faction-related elements, nor are they designed for play by characters over a wide range of levels. Sometimes they include pregenerated characters tailored and themed to the adventure. While not required, we recommend using these provided characters, as they strengthen players’ immersion in the story.

Thematically, Starfinder Adventure Paths don’t assume the characters are members of the Starfinder Society. The Threefold Conspiracy is therefore offered outside of the standard Organized Play environment; characters don’t need to conform to the standard Organized Play requirements laid out in the Guide to Organized Play: Starfinder Society.

APPLYING CREDIT
Players who play through The Threefold Conspiracy as well as GMs who run the adventure can apply the adventure’s Chronicle Sheet to any of their Starfinder Society Organized Play characters in the listed level ranges. Players and GMs must decide which character to apply credit to when they receive the Chronicle Sheet. Each Chronicle Sheet gives 3 Experience Point(s), 5 Reputation with one faction, and credits as listed on the Chronicle Sheet. A character can also attempt one Day Job roll to earn income per XP earned, using a skill bonus from the character receiving credit. In addition, players and GMs receive Achievement Points, which they can use to purchase Starfinder Society character upgrades. These adventures are not repeatable (with the exception of the first volume, The Chimera Mystery), therefore an individual may earn a chronicle once as player and once as GM for the adventure.

Players earn access to the items and options listed on the Chronicle Sheet through their actions during the adventure. If the PCs don’t discover an item or fulfill the conditions described in the adventure to gain access to an option, cross that option off of each player’s Chronicle Sheet. If a PC gains access to an option presented on the Chronicle Sheet that can only be obtained by one member of the party, they earn that option on the Chronicle Sheet for all members of their group.

ABOUT THE STARFINDER SOCIETY
The Starfinder Society is a worldwide science fantasy living campaign that puts you in the role of an agent of the Starfinder Society. The Society is a group of explorers who travel out into the galaxy in search of lost knowledge and technologies, bringing what they learn back with them to share with the people of the Pact Worlds.

In an organized play campaign, characters exist in a common setting shared by tens of thousands of other gamers from around the world. Paizo’s Organized Play programs, including Starfinder Society and Pathfinder Society, are campaigns produced by Paizo and used by a volunteer community of organizers and GMs in more than 36 countries on six continents.

Participants in the Starfinder Society can take their characters to any public Starfinder Society event anywhere in the world,
and any Game Master can gather a group of players to run through dozens of different pre-made adventures. It’s a great way to get in touch with other local gamers, meet new people, and play regularly without all the prep work and scheduling of a traditional campaign.

Players and GMs both earn special Achievement Points for participating, which they can use to buy special options for their characters on paizo.com. GMs earn double Achievement Points rewards for the games they run. For more information on the Starfinder Society, on how to read the attached Chronicle Sheet, and to find games in your area, check out the campaign’s homepage at starfindersociety.club.
Simulated Experiments (Slotless Boon; Limited-Use): You discovered your entire time on the Chimera to be a deception; a simulated environment. Other simulations of past events could exist out there, and you or others may stumble into them. Check a box for each adventure in the Threefold Conspiracy adventure path that you complete (does not have to be with this character).

☐ #25: The Chimera Mystery  ☐ #26: Flight of the Sleepers  ☐ #27: Deceivers’ Moon
☐ #28: The Hollow Cabal  ☐ #29: The Cradle Infestation  ☐ #30: Puppets Without Strings

Each time you use this boon, cross out one of the checked boxes above. For every two adventures marked in this manner, you can replay one scenario (but not module or adventure path adventure) you've previously played as though that scenario had the repeatable scenario tag, for any character you possess. This allows you to earn a Chronicle sheet and all associated rewards with the scenario, though you cannot select a scenario you've already played with the selected character.

You can only ever use the effects of this boon once, regardless of how many characters have completed this adventure. Other characters playing through this adventure still earn credits and equipment access as normal, but do not gain an additional copy of this boon.

Chronicle Code: LBMV
Gray Anatomy (Personal Boon; Limited-Use): Your efforts in escaping the mysterious gray installation have not gone unnoticed, and it’s clear that other grays watch your actions with interest. In fact, the mysterious grays now follow you and learn about any species you contact, taking time to intensely analyze those species. Once they’ve analyzed enough species, the grays may even come to join the Society in hopes of uncovering even more new species to examine.

Anytime you, or any character you possess, earns a boon on a Chronicle sheet that allows you access to play a new race, you can cross that boon off the Chronicle sheet and mark a checkbox below along with the associated race. Note “Gray Anatomy” beside the crossed off boon and keep that Chronicle sheet (or a copy) with this Chronicle sheet. Each boon you cross out in this manner must give access to a different race.

☐ Race Boon 1: _______________________________
☐ Race Boon 2: _______________________________
☐ Race Boon 3: _______________________________
☐ Race Boon 4: _______________________________
☐ Race Boon 5: _______________________________
☐ Race Boon 6: _______________________________
☐ Race Boon 7: _______________________________
☐ Race Boon 8: _______________________________
☐ Race Boon 9: _______________________________
☐ Race Boon 10: ______________________________

Once you check all of the above boxes, you can play a gray character (Starfinder Alien Archive 57), beginning at 1st level as normal. In addition, you can select one ability score that is 14 or lower and increase it by 2 at the end of the character creation process. Other than access to this additional race, all character creation rules are the same as those outlined in the Starfinder Society Guide to Play. A copy of this Chronicle sheet must be the first Chronicle sheet for the given character, and you must bring a copy of one of the rulebooks listed below to all sessions in which you place this character as if access to this race selection were granted by the Additional Resources list.

Allowed Race: Gray (Starfinder Alien Archive 57)

**Zernivian Companion (Slotless Boon):** After uncovering the dycepskian threat on Roselight, you spent some time further studying these fungal infiltrators. Your research had you learn of zernivians, tiny plant-eating aberrations who the dycepskians have come to fear. Though you’ve yet to encounter a true zernivian yourself, your research has put you in contact with a black market dealer who sells a companion creature that is a zernivian trapped within an inhabited host creature.

For any of your characters, you can select the trapped zernivian companion creature. For rules on companion creatures, see *Alien Archive 3* page 138. Zernivians and trapped zernivians are detailed in *Starfinder Adventure Path #28: The Hollow Cabal*.

### TRAPPED ZERNIVIAN  LEVELS 10–20

**Small aberration**

**Senses** darkvision 60 ft., herbsight 60 ft., low-light vision

**Good Save** Will; Poor Saves Fort, Ref

**Immunities** disease

**Speed** 30 ft.

**Melee Attack** tongue (A & B)

**Ranged Attack** acid spittle (A)

**Space** 5 ft.; **Reach** 5 ft.

**Ability Modifiers** Dex Wis

**SPECIAL ABILITIES**

**Acid Spittle (Ex)** Every 1d4 rounds, a trapped zernivian can spit a blob of acidic spittle with a maximum range of 30 feet.

**Herbicide (Ex)** Plant creatures, creatures with the dycepskian subtype, and creatures with the plantlike universal creature rule take half again as much damage (+50%) from the trapped zernivian's acid spittle and tongue attacks, and are never immune.

**Herbsight (Ex)** Trapped zernivians have an extrasensory ability that enables them to rapidly seek out and find plant life. This ability functions as blindsight (scent), except the trapped zernivian can detect only plant creatures and creatures with the dycepskian subtype or the plantlike universal creature rule.

**Host Body (Ex)** A zernivian trapped in a host body appears to be a Small predator or herd animal (*Starfinder Alien Archive 2*); anyone who might penetrate this disguise must succeed on a Perception check with a DC equal to the bound zernivian’s skill bonus + 15.

Inheritorworks Crusader (Starship Boon): You can only slot this boon in a Level 7–10 scenario, and everyone at the table must agree to you slotting this boon. When you slot this boon, rather than choosing the standard starships presented in the Guide to Organized Play: Starfinder Society (such as the Drake or Pegasus), you can instead choose to take an Inheritorworks Crusader. The statistics for this hull are presented below. This ship can be further upgraded with Starship boons from other characters in the group as normal.

When used in the 7–8 level range, the vessel is slightly damaged; reduce its HP to 160 and lower its AC and TL by 2.

Life of a Clone (Slotless Boon; Limited-Use): The truth has been revealed: you are a clone! Though your life has been the creation of powers seeking to usurp you for their ends, you’ve managed to wrest control of your destiny. Still, your background always provides you with the opportunity for your original to step into the limelight, whether you want them to or not.

You can use this boon in one of two ways. The first is to change up to 6 levels worth of character choices as though using a mnemonic editor. Using this boon in this manner does not count towards the number of mnemonic editors your character can use. This represents your clone taking over your position in life and you may decide to make suitable personality and appearance changes to your character as a result of this change.

The second way to use this boon is only when your character dies during the course of an adventure. You gain the benefits of a raise dead without taking any negative levels. You can then immediately choose to gain the benefits of the previous boon option; allowing you to change up to 6 levels worth of character choices as though using a mnemonic editor. This represents your clone taking over your position in life and you may decide to make suitable personality and appearance changes to your character as a result of this change.
